About us

The purpose of the NextPort vCoE INC. is to provide science to the port and maritime sector and stakeholders having an overall positive impact on society and the environment, through a Research Virtual Centre of Excellence capable of informing and advising port and maritime authorities on management challenges in diverse ecoregions and maritime clusters while promoting capacity-building, collaboration, and virtual engagement between the members of the scientific network of excellence.

The incorporated association, NextPort vCoE INC. specifically is established for the benefit of the port and maritime sustainable development regional and globally and for the inclusion of women in this sector as well as people from culturally and linguistically diverse backgrounds.
